

Save the environment.

Say NO to car washing in the community. Wipe your car with a damp cloth instead.

The chemicals you use to wash your car are seeping into the lakes and polluting the water.

Foam due to soap suds

Did you know?

There are 66 inter-connected, man-made lakes in Emirates Living which connect to Dubai Marina and the sea via underground pipes.

ATTENTION

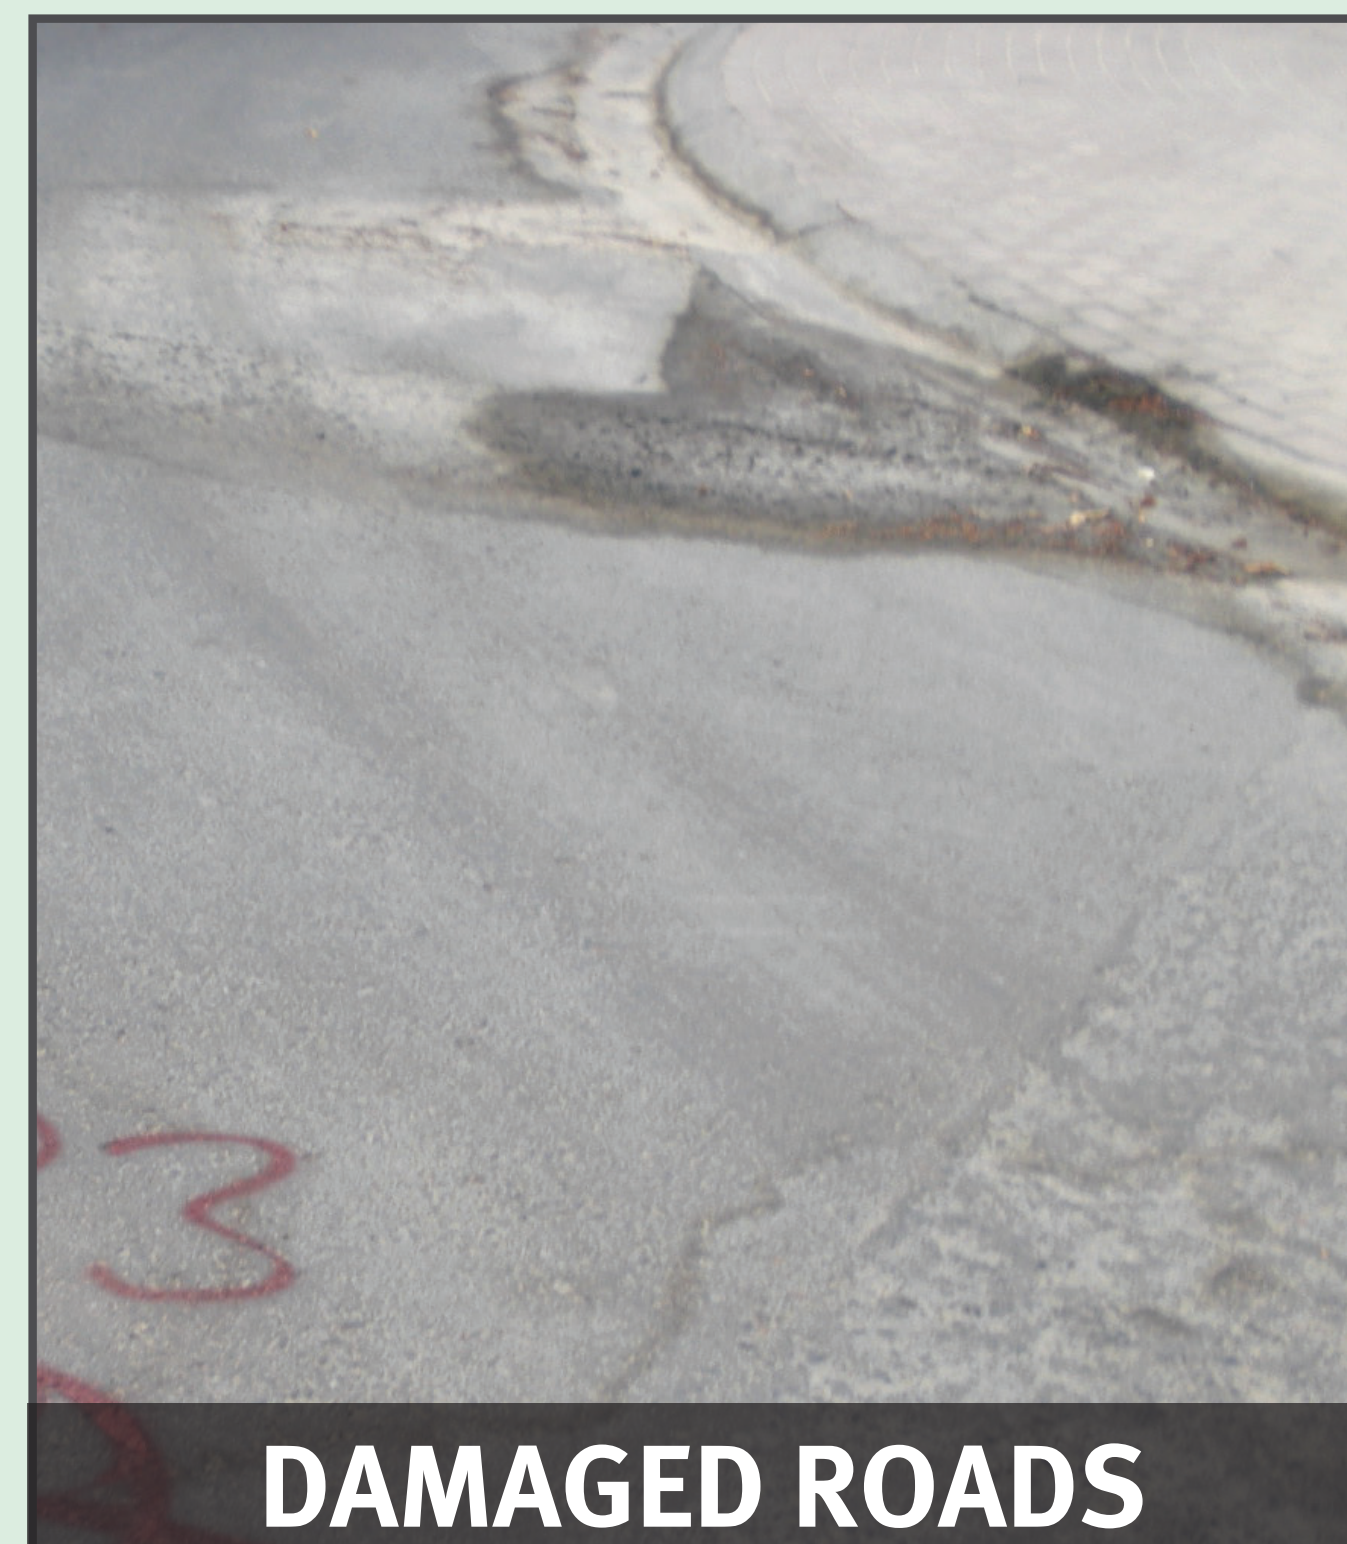

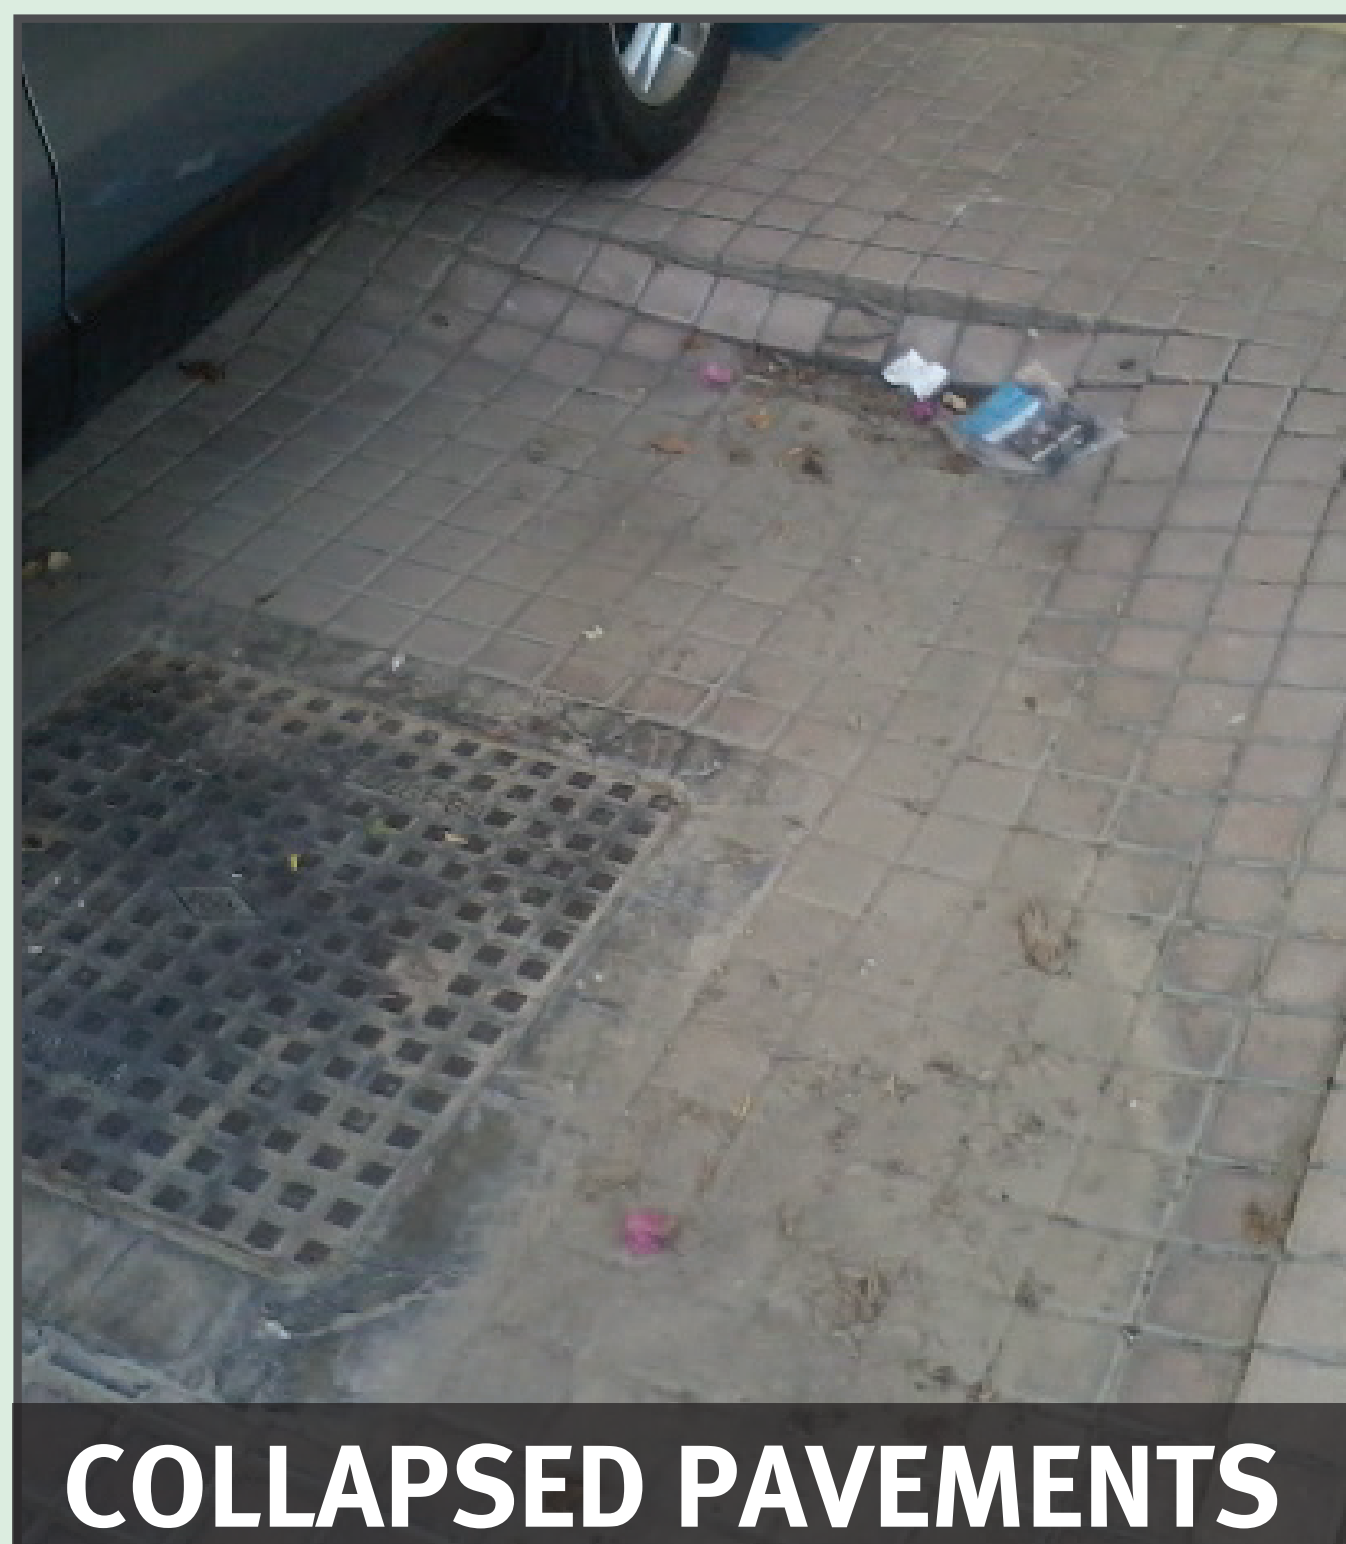

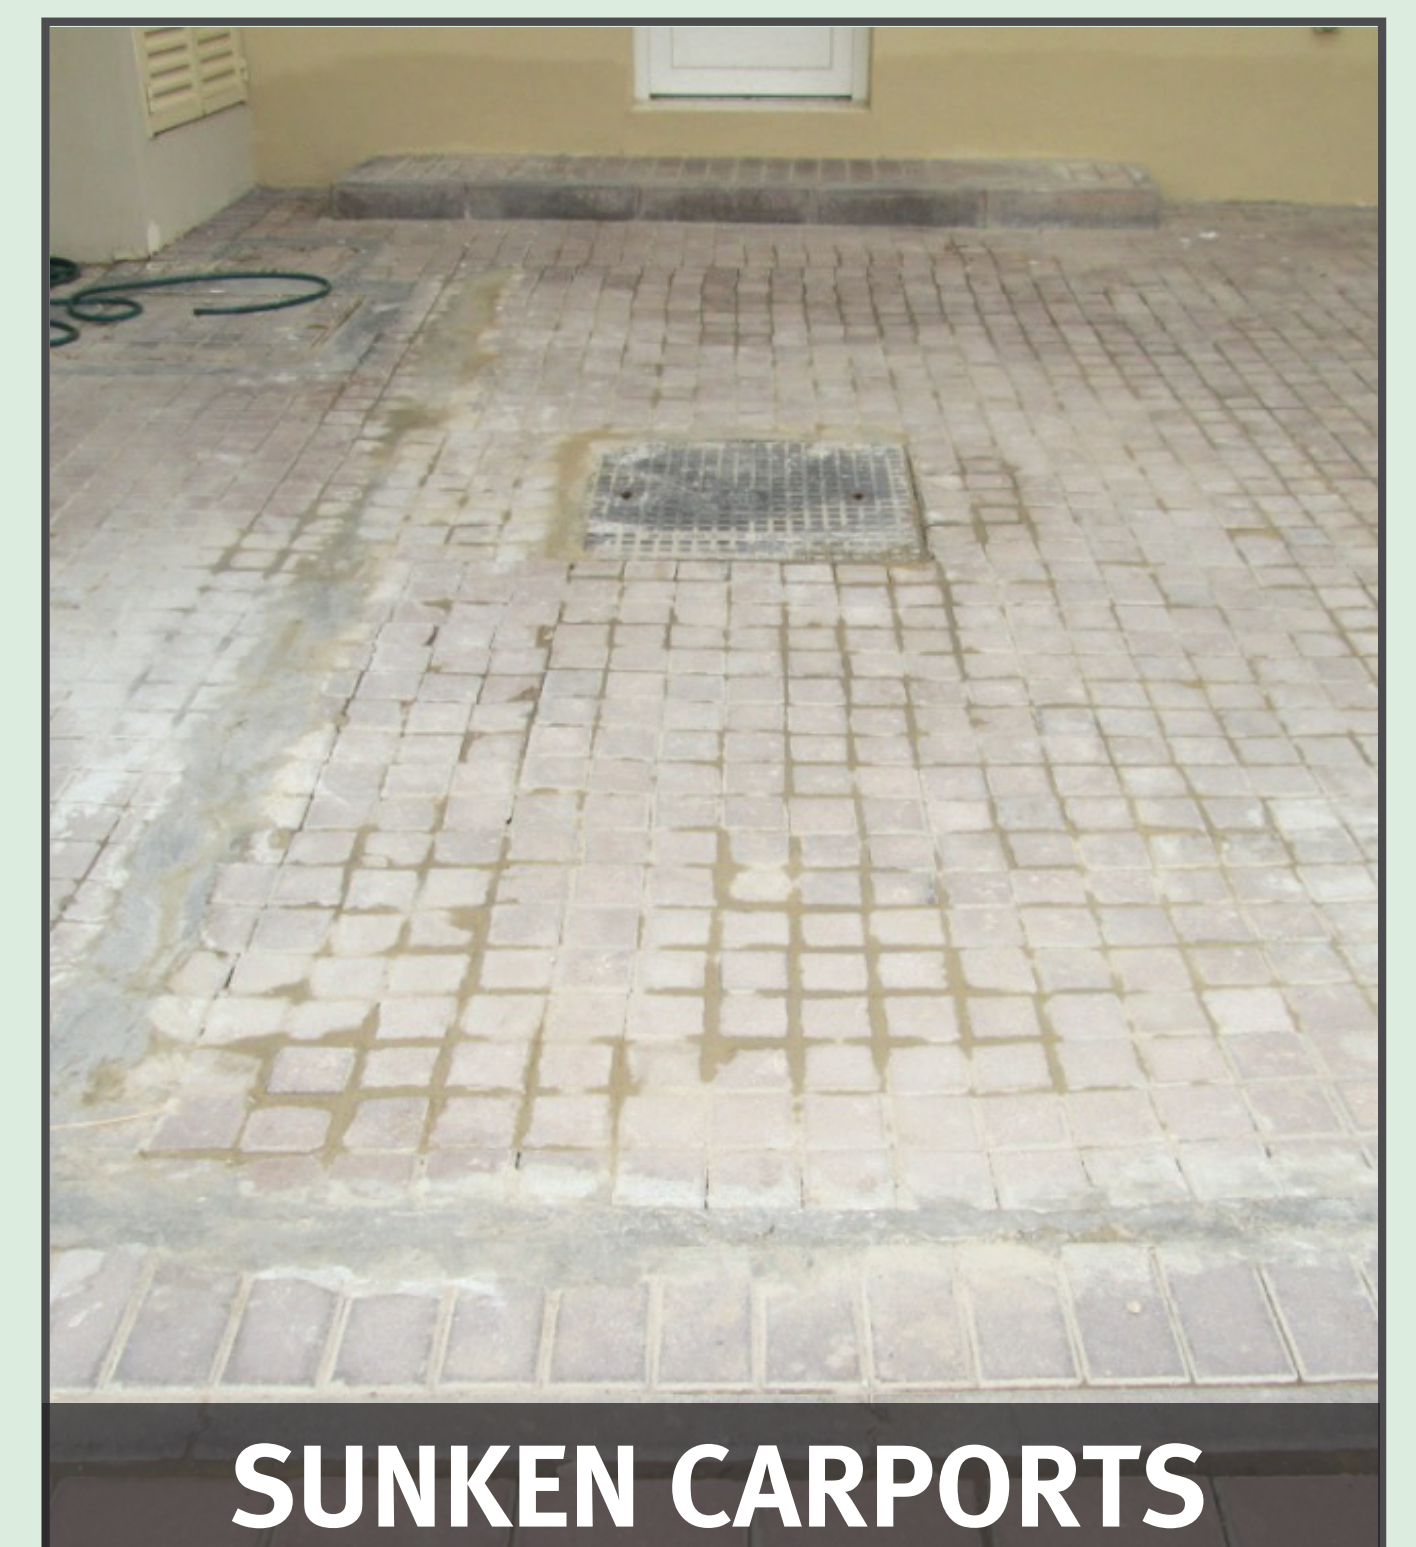

Protect Your Community – Clean Your Car Responsibly!

A clean vehicle is great but not at the cost of your community and ultimately the environment!

BE SUSTAINABLE

- Washing cars in the community is strictly prohibited
- Exercise damp cleaning methods in private carports
- Use waterless eco-friendly cleaning products
- Educate your household staff
- Work towards a sustainable lifestyle and a cleaner community

HOW CAR CLEANING COSTS YOU MORE IN COMMUNITY SERVICE FEES

- Harsh cleaning agents stain and damage community roads
- Overflowing water accumulates on pavements
- Detergent residue overflows into common areas
- Overflowing water drains spill into community lakes causing pollution
- Pavement interlocks and road asphalt layers sink due to water residue

Did you know?

For every square metre of road surface that has suffered damage, approximately AED 465 is spent on repairs and restoration.

NOTICE OF VIOLATION AND PENALTY

Damage to the common areas is a violation of the Community Rules.

Violations will result in a Notice of Violation (NOV) being issued along with a penalty of AED 500. Additionally, local authorities may also be involved in this matter.
